

It's Em-TV!

STUNNING Emma Ledden is to front MTV's daily news programme.

The 24-hour pop channel says the Dublin-born 22-year-old is the perfect successor to Jenny McCarthy and Carmen Electra.

This raunchy pic from clubbers' bible Ministry mag shows that Emma has what it takes. Emma says her secret of looking fantastic is a diet of booze and clubbing.

She confessed: "I used to go drinking in the park, get completely hammered and then pass out.

"I still do it, but in nightclubs, and I drink vodka.

"Come 3am I'm dead. Except I don't fall over now as I'm too sophisticated. I just fall asleep instead."
